CEAS Aeronautical Journal & CEAS Space Journal

Dear CEAS Board Members and Member Societies,

The CEAS Journals have been in circulation now for three years and I would like to take this opportunity to ask you for your support in further promoting and reinforcing this unique European aerospace platform.

As you are no doubt aware, the Journals are devoted to publishing new developments and outstanding results in their respective areas of interest. I have the honour of representing the CEAS Aeronautical Journal in the field of aeronautical science and technology as its Editor-in-Chief. The CEAS Space Journal covers astronautic topics. Its Editor-in-Chief is Constantinos Stavriniadis from the European Space Agency (ESA), who is also Chairman of the CEAS Space Branch.

I am fully convinced that both Journals have the potential to play a future strong role in representing European opinions in aerospace research. However, the biggest challenge still is to attract an acceptable number of high caliber scientists and engineers to send us articles for publishing. Therefore, publicizing your hard-earned results, I would appeal to you to contribute to the development of these Journals. You would also increase interest in the Journals by circulating this message amongst fellow members and CEAS colleagues to participate in promoting aerospace research in Europe.

Please visit <http://link.springer.com/journal/13272>, and <http://link.springer.com/journal/12567>, respectively, for further details.

Yours faithfully,

Rolf Henke
